# THE ROCK GARDEN

## PLANT LIST

**I**N this list we offer many NEW and INTERESTING plants and include most of the old favorites. All are easy to grow and have proven hardy in our northern section. Many very beautiful varieties have been discontinued as unsuitable or too difficult under growing conditions as found in most localities. Our list offers you more than 200 varieties in a wide choice as to color, habit and type, at a reasonable price.

---

### NEW

#### ARABIS ALPINA FLORE PLENO

Pure white flowers in abundance—completely double, of large size and the fragrance of Jasmine. Less rampant than the type and does not seed. The ideal plant for ground cover for spring-flowering bulbs or the striking touch of white so essential in effective plantings. The fragrance is alluring and the delightful double flowers irresistible. 35c each or three for \$1.00.

## THE ARISTOCRAT OF THE GARDEN

### DIANTHUS CAESIUS

Do not confuse this rare, true type with those listed under this name, which vary in height and color. Extremely compact growth of glaucous foliage forming a neat symmetrical mound not over three inches high. Many large fragrant pink flowers on three inch stems. The very finest strain of this species ever offered in this country. Must have sun and good drainage. 50 cents to \$2.00 each according to size. STOCK LIMITED.

## ALL PLANTS FIELD GROWN

### EUPHORBIA CYPARISSIAS (CYPRESS SPURGE)

An interesting addition to the rock garden, growing only a few inches tall. It resembles a miniature evergreen of the cypress type, yet the foliage is mossy and surprisingly soft to the touch. Grown in the shade it is a plant of rare beauty. Of luxuriant growth and green tone. Indispensable for that shady spot. Price 25 cents each or three for 65 cents.

	HGT.

### **PACHYSANDRA TERMINALIS (Japanese Spurge)**

A broad leaved evergreen plant 6 to 8 inches high. Of a bright green color and beautiful form. It offers the most pleasing solution of the ever present need for an attractive planting for shade or bare unsightly spots under shrubs or trees. It is unsurpassed as a ground cover under evergreens as it conserves the moisture when planted beneath them. Is invaluable as an edging along steps, walks, drives or the garden path. Always neat and is perfectly hardy.

Price, Six for \$1.25—Twelve for \$2.35

<b>THYMUS Citriodorus Argenteus</b> —Silver leaved Thyme, 35c.....	8"
